

Public Class Discount Program

updated January 2024

PROGRAM DESCRIPTION:

CPR LifeLine created this discount program for companies and organizations who want to offer their employees and volunteers CPR and First Aid classes on a regular basis. The program enables groups to take advantage of quantity discounts for utilizing our public classes for individuals with the convenience of making only one payment.

HOW IT WORKS:

Pre-purchase 10 or more spots in one type of class and receive 10% off. Payment must be made by check or direct deposit and invoicing is available upon request. Upon receipt of payment, a discounted "promo code" is issued for the quantity purchased to use during online registration. Registrations and student attendance is tracked and training records can be requested at any time. *All Heartsaver classes include a book for each student. The BLS Provider book is available for \$18.50, they can be pre-purchased and included in the promo code or offered during registration for an additional fee (ebooks also available via AHA).*

*Promo codes do not expire but if the class fee increases, a balance due may be required after 90 days of purchase.

*A maximum of 4 people from the same company/organization can attend the same class date when on this discount program.

*All students must adhere to the public class cancellation/reschedule policy. The policy is stated in the Terms & Conditions during the online registration process and also included in class confirmation sent by email.

Course Options	Cost per person without discount	Cost per person with 10% discount
