

Public Class Discount Program

as of 1/1/2026

PROGRAM DESCRIPTION:

CPR LifeLine created this discount program for companies and organizations who want to offer their staff, members, and volunteers etc BLS, CPR, and First Aid classes on a regular basis. The program enables groups to take advantage of quantity discounts for utilizing our public classes with the convenience of making only one payment.

HOW IT WORKS:

Pre-purchase 10 or more spots in one type of class and receive 10% off. Upon receipt of payment, a promo code is issued for the quantity purchased to use during online registration. Student manuals are available for pre-purchase (Heartsaver \$6, BLS \$22) and included in the promo code or they'll be offered during registration for an additional fee. Registrations and student attendance is tracked and training records can be requested at any time.

*Payment accepted by check to receive full discount. Request an invoice if needed.

*Promo codes do not expire but if the class fee increases after 90 days of purchase, a balance due may be required.

*A maximum of 4 people from the same organization can attend the same class date.

*All students must adhere to the class cancellation/reschedule policy. The policy is stated during the online registration process and included in class confirmation sent via email.

Course Options	Cost per person without discount	Cost per person with 10% discount
